*This is to certify that
representative samples of*

Underground Flammable Liquid Tanks
Jacketed underground tanks for flammable liquids.

Have been investigated by Underwriters Laboratories Inc.® (UL) or any authorized licensee of UL in accordance with the Standard(s) indicated on this Certificate.

Standard(s) for Safety:

UL 58 Steel Underground Tanks for Flammable and Combustible Liquids
UL 1746 External Corrosion Protection Systems for Steel Underground Storage Tanks.

Additional Information:

These are cylindrical, horizontal tanks designed for the underground storage of flammable liquids at atmospheric pressure. They are fabricated using an inner steel case, an interstitial material and a combination of mechanical and hand lamination of chopped glass fiber and polyester resin for the outer jacket.

Only those products bearing the UL Listing Mark should be considered as being covered by UL's Listing and Follow-Up Service.

The UL Listing Mark generally includes the following elements: the symbol UL in a circle:  with the word "LISTED"; a control number (may be alphanumeric) assigned by UL; and the product category name (product identifier) as indicated in the appropriate UL Directory.

Look for the UL Listing Mark on the product
